

IUMAS 9

XI'AN, CHINA

2026.05.31 - 2026.06.03

The 9th Congress of the International Union of Microbeam Analysis Societies
joint with Chinese EPMA Annual Meeting in Earth Sciences

PLENARY SPEAKERS

Dr. Raynald
Gauvin
McGill
University
(Canada)

Dr. Zonghoon
Lee
Ulsan National
Institute of
Science and
Technology
(Korea)

Dr. Philippe
Pinard
Oxford
Instruments
(UK)

Dr. Toshiaki
Tanigaki
Hitachi Ltd
(Japan)

Dr. Rucheng
Wang
Nanjing
University
(China)

Dr. Nick Wilson
CSIRO
(Australia)

Abstracts Due
January 31, 2026

Registration Due
March 31, 2026

The 9th Congress of the International Union of Microbeam Analysis Societies
joint with Chinese EPMA Annual Meeting in Earth Sciences

IUMAS 9 XI'AN, CHINA

2026.05.31 - 2026.06.03

IUMAS was founded in 1994 to promote world-wide cooperation in all aspects of microbeam analysis through the organization of an International Congress on microbeam analysis every three to four years, and by participating in joint committee's with other scientific organizations in matters relevant to microbeam analysis which are better discussed on a world scale.

SCIENTIFIC TOPICS

*Quantitative EDS / EPMA Fluorescence imaging in lab / SEM and
synchrotron-based (micro / nano) Cathodoluminescence Advanced SEM techniques
Compositional imaging FIB & Related Techniques / 3D FIB
Spectroscopy & Spectromicroscopy TEM / STEM / Analytical EM
Correlative microscopy & microanalysis Dynamic & in-situ EM
Data processing / Machine learning EM in materials applications Cryo electron tomography
Single particle applications in biological sciences Light microscopy / super resolution
Biological multi-scale imaging Methods development for biological samples in EM*
